HAPPY NEW MONTH

Building for
Generations

AUGUST, THE "8"TH

BUILDING
ENDLESS
POSSIBILITIES

Building for
Generations

Not a government revolution, but it will strike change in you,
Blockchain is coming deeply to more cities in Africa.

Get ready!

Generations

The Way Forward

Africa doesn't just need more mere conversations about blockchain.

Africa needs builders. It needs innovators. It needs communities where learning leads to action. That is the vision behind the Ibom Blockchain Experience Tour: bringing practical blockchain education closer to communities across Nigeria, Benin Republic, Cameroon, Ghana, Togo, and Ivory Coast. Because when more Africans understand how to build with blockchain, the continent doesn't just adopt technology.

Join the movement now. **Learn. Build. Grow.**
